

# CHILLI CAYENNE CAYSAN

High quality and high yield are key features of **CAYSAN** which produces smooth tapered fruit. This popular variety has been the market standard for many years due to the reliability of production, quality presentation and excellent shelf life.

A vigorous plant with continuous fruit setting resulting in a high total yield, **CAYSAN** is early to mature and the dark green fruit change colour quickly to red. A moderately pungent type, the fruit has excellent firmness when harvested either green or red.

## VARIETY FEATURES

- Fruit mature to red colour
- Fruit size approximately 14cm x 2cm
- Pungency levels of 30,000-50,000 Scoville units

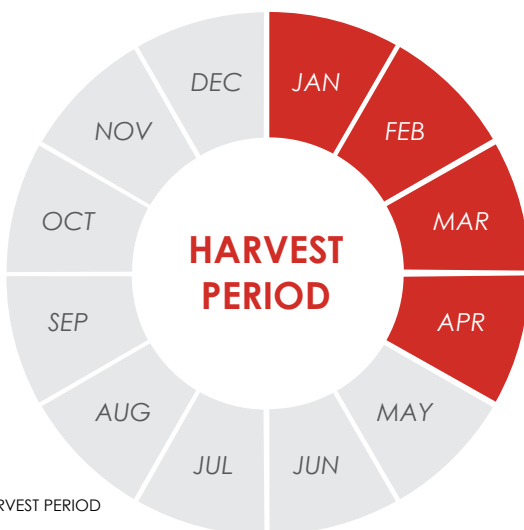

## AGRONOMIC CONSIDERATIONS

- A hybrid variety
- Covered production is possible year round

## PACK SIZES

10G, 50G, 100G
