

BABYLEAF ROCKET GEMINI

GEMINI is a wild rocket that provides an alternative alongside Rocky for growers wanting a fast growing variety. A Diplotaxis type (true wild rocket), **GEMINI** is extremely vigorous and is fast to establish, making it ideally suited to cooler situations.

It is dark green in colour and develops a very thick leaf ensuring an extended shelf life. **GEMINI** has a deeply serrated leaf, more so than even Rocky, and has a sharp, peppery, wild rocket taste.

VARIETY FEATURES

- Dark green colour
- Light green stem colour
- Lobed leaf shape
- Serrated leaf margins
- Erect growth habit

AGRONOMIC CONSIDERATIONS

- Moderate bolting tolerance
- Best results obtained from high population sowings for machine harvesting
- Not suited to Winter harvest

PACK SIZES

1kg, 5kg, 10kg
