

BEAN CONTENDER

CONTENDER is a long time market standard that is still grown widely today due to its reliability and versatility. A stringless bean that is excellent cooked or eaten raw from the field, **CONTENDER** sets numerous pods ensuring good yields.

With good tolerance to heat and also to mildew, **CONTENDER** can be grown right throughout the Spring, Summer and Autumn. Early to mature, regular sowing of **CONTENDER** will ensure a continuous harvest throughout the season. For an older variety the pod quality is still comparable to that of the newer hybrids.

VARIETY FEATURES

- A dwarf (bush) bean type
- Mid-long, round pod shape
- Mid green pod colour

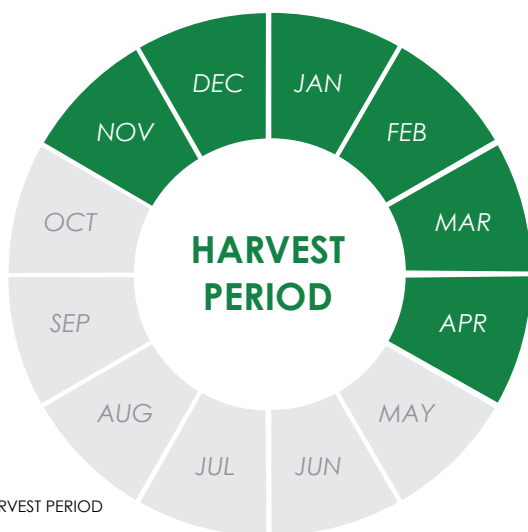

AGRONOMIC CONSIDERATIONS

- Will mature in approximately 50 days from sowing

PACK SIZES

1kg, 5kg, 25kg
