

# BABY CARROT BEBE

**BEBE** is a quick growing specialist baby carrot variety which matures in approximately 10 weeks from sowing. The roots are tasty with sweet flavour, good orange colour throughout the root and are highly uniform. It produces small strong tops which are easily pulled and bunched for selling.

**BEBE** needs to be harvested while young to ensure the roots meet the baby carrot specifications and maintain their eating quality.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

## VARIETY FEATURES

- Baby variety
- Deep orange roots
- Tapered root shape

## AGRONOMIC CONSIDERATIONS

- Sowing times should be as per the standard carrot sowing period in your area of production so as to produce quality roots

## PACK SIZES

250M, 1000M
