

MICROGREEN ENVY

ENVY is an Italian parsley suitable for sprouting and microgreen production.

With aromatic appeal, **ENVY** is popular for lifting microgreen mixes which can be dominated by mustard flavours.

Slightly slower to germinate than many other sprouting and microgreen varieties.

VARIETY FEATURES

- Mid green cotyledons
- Mid green stems
- Distinct parsley flavour

PACK SIZES

500G, 5KG, 10KG

Untreated seed

All our microgreen seeds are untreated.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.
