

MICROGREEN ELVIN

ELVIN is an organic broccoli suitable for sprouting and microgreen production. The sprouts of **ELVIN** grow very rapidly and are ready to be eaten in 5-6 days.

ELVIN has quite a strong and spicy taste which can add freshness to salads, hors d'oeuvres, meat and fish courses and even to spice up sandwiches.

The dark green cotyledons provide a nice colour contrast to microgreen mixes.

VARIETY FEATURES

- Dark green cotyledons
