

MICROGREEN ROUGE

ROUGE is a purple beet suitable for sprouting and microgreen production.

The unique elongated, dark purple cotyledon makes **ROUGE** a variety which is sought after by chefs as a garnish.

The sweeter beet flavour adds another dimension to brassica dominated mixes.

VARIETY FEATURES

- Purple cotyledon
- Purple stems
- Sweeter beet flavour

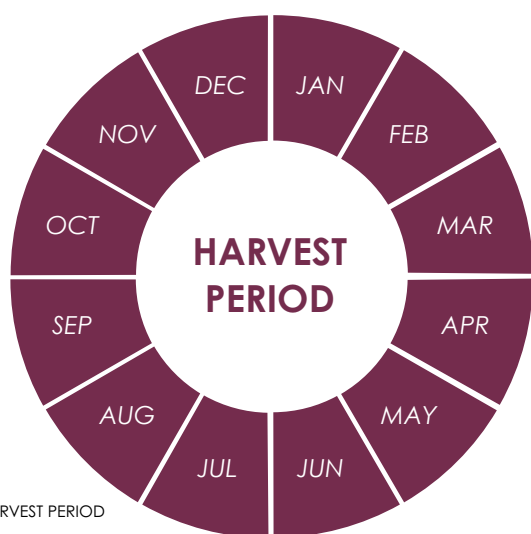

PACK SIZES

500G, 5KG, 10KG

Untreated seed

All our microgreen seeds are untreated.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.
