

# DAIKON RADISH JAPANESE WHITE

Maturing in approximately seven weeks from sowing, **JAPANESE WHITE** is a Daikon radish with a green shoulder. **JAPANESE WHITE** is suitable for sowing from Summer and harvesting during the late Summer, Autumn and Winter.

Producing large roots (40cm x 6cm) that are smooth-skinned with a tapered tip and nice colour contrast between the green and white. **JAPANESE WHITE** has excellent keeping ability and will hold well in the field.

## VARIETY FEATURES

- White root colour
- Cylindrical root shape
- Moderately vigorous tops

## AGRONOMIC CONSIDERATIONS

- Roots need to be harvested when young as they will become pithy when overmature

## PACK SIZES

100G, 500G, 5KG
