

LETTUCE COS MINI PIXIE

PIXIE is a triple red, mini cos suitable for whole head production. **PIXIE** has thick leaves and a good leaf count which provides weight to the heads. **PIXIE** can be grown year round in either field or hydroponic systems. **PIXIE** makes an ideal variety for cos twin packs. It is slow to bolt in Summer but has enough vigour to maintain an even growth through the cooler months and periods of extended rain.

VARIETY FEATURES

- Triple red colour
- Mini cos size
- Good vigour

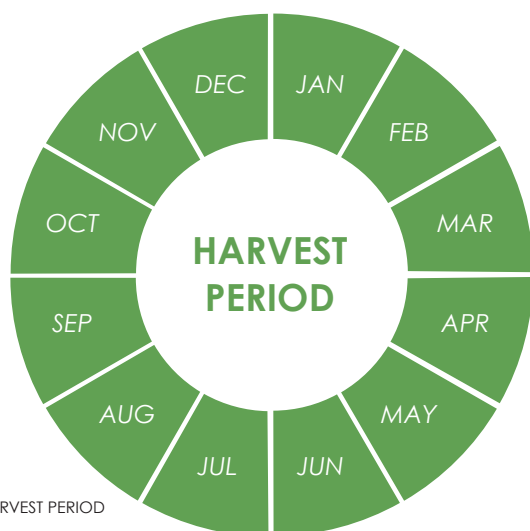

AGRONOMIC CONSIDERATIONS

- Suitable for both field and hydroponic production
- Strong tolerance to tipburn
- Good bolting tolerance
- Good field tolerance to anthracnose

PACK SIZES

1M, 5M, 25M

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

DISEASE RESISTANCES

High Resistance: Bl:1-35
