

LETTUCE COS MINI CHICO

CHICO is a dark green mini cos suited to warm and hot season harvest and, as such, has a very wide harvest window. **CHICO** has thick, lightly blistered leaves and a yellow internal. **CHICO** is very upright in habit and has a v-shaped butt making it an ideal option for sleeving or twin packs.

A larger sized little gem type, **CHICO** attains 15cm in height and produces a very uniform crop making for an easy harvest. In the field **CHICO** has shown strong tolerance to Pythium. With a full mildew package (Bl:1-33) and Nasonovia resistance **CHICO** provides growers with good disease protection.

VARIETY FEATURES

- Dark green colour
- Larger, little gem head size
- Medium vigour

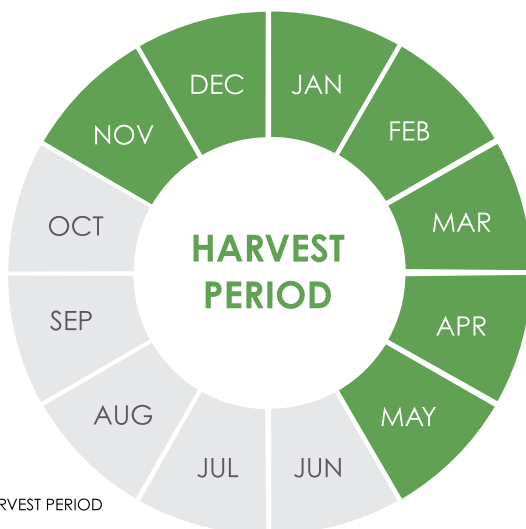

AGRONOMIC CONSIDERATIONS

- Suitable for field production and hydroponic systems
- Strong tolerance to tipburn
- Strong tolerance to bolting

PACK SIZES

1M, 5M, 25M, 100M

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

DISEASE RESISTANCES

High Resistance: Bl:1-33, Nr:0
