

HERB BASIL LUCIA

LUCIA is a Genovese type basil that is suited for both potted and cut production. A compact and stable plant, **LUCIA** produces smaller, horizontal leaves with a slight cup.

LUCIA has intermediate resistance to downy mildew meaning this variety can be grown when disease pressure is high and other varieties begin to struggle.

LUCIA performs well under a range of different growing operations, including LED vertical farming.

VARIETY FEATURES

- Dark green leaf
- Rounded leaf
- Compact and upright plant

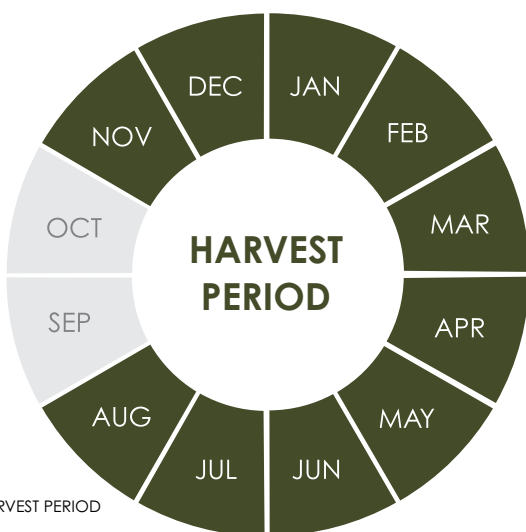

AGRONOMIC CONSIDERATIONS

- Suitable for hydroponic production systems

PACK SIZES

100G, 1KG, 5KG

DISEASE RESISTANCES

Intermediate Resistance: Downy Mildew
