

SPINACH ORACLE

ORACLE is a high yielding, cool/cold season spinach with a very strong mildew package. A sister-line to Prophet, **ORACLE** produces a slightly rounder leaf and is slightly slower resulting in a very high yield and thick leaves with an excellent shelf life.

As with Prophet, in more Northern regions **ORACLE** will push right through Winter allowing for a very wide harvest window. In the South Island **ORACLE** will be best suited to the shoulders. As it is not an Oriental type **ORACLE** is not as upright as varieties such as Black Glove and Eclipse but it develops high numbers of very thick, oval shaped leaves. The leaves have an attractive, slight savoy that gives texture in the bag.

ORACLE shows strong tolerance to yellowing in periods of heavy/continuous rain.

VARIETY FEATURES

- Dark green leaf colour
- Oval leaf shape
- Lightly savoyed leaf texture

AGRONOMIC CONSIDERATIONS

- Strong tolerance to bolting

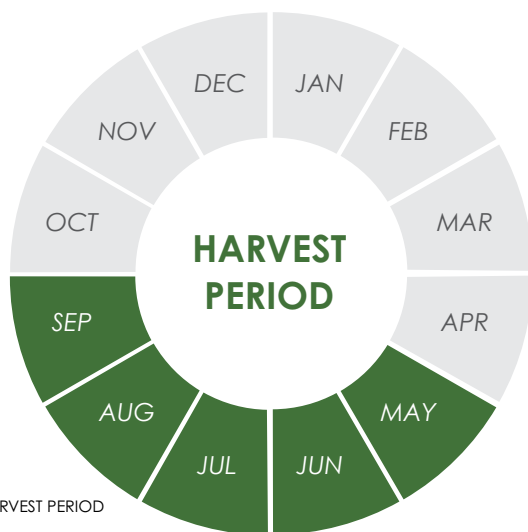

PACK SIZES

100M, 500M, 1MM

DISEASE RESISTANCES

High Resistance: Pfs:1-7, 9-19
