

SPINACH PROPHET

PROPHET is a high yielding, uniform, cool/cold season spinach variety with a very strong mildew package. In more Northern regions **PROPHET** will push right through Winter allowing for harvest from late Autumn through until mid-Spring; in the South Island **PROPHET** will be best suited to the shoulders.

PROPHET develops high numbers of very thick, oval shaped leaves which have an upright habit allowing for ease of harvest. The leaves have an attractive, medium savoy that gives texture in the bag and results in high yields.

PROPHET shows strong tolerance to yellowing in periods of heavy/continuous rain and has strong tolerance to pythium in periods of heavy stress.

VARIETY FEATURES

- Dark green leaf colour
- Oval leaf shape
- True semi-savoyed leaf texture

AGRONOMIC CONSIDERATIONS

- Strong tolerance to bolting

PACK SIZES

100M, 500M, 1MM

DISEASE RESISTANCES

High Resistance: Pfs:1-6, 8-17, 19

HARVEST PERIOD

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location.
