

TOMATO ROOTSTOCK ECHELON

ECHELON is a powerful rootstock with extensive disease cover. **ECHELON** continues to produce strong root systems whilst optimising scion performance in high pressure conditions.

ECHELON provides resistance to several soil-borne diseases for those growers requiring additional protection.

Additionally, **ECHELON** will ensure greater plant endurance under abiotic stressors such as drought, salinity and high temperatures.

VARIETY FEATURES

- Highly vigorous
- Extensive disease resistance
- Strong root development

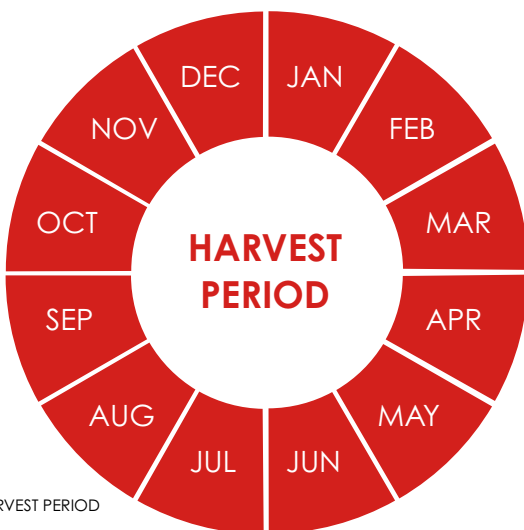

AGRONOMIC CONSIDERATIONS

- Highly productive rootstock
- Tolerant against Fusarium, Verticilium and Powdery Mildew

PACK SIZES

1C, 1M

HARVEST PERIOD

DISEASE RESISTANCES

High Resistance: Fol(0, 1), For, On, Pl, ToMV(0-2), Va, Vd
Intermediate Resistance: Ma/Mi/Mj

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.
