

# LETTUCE CRUNCHY COS MINI JAMMER

**JAMMER** is a small to medium-sized, crispy cos suitable for both whole head harvest (either as single heads or for use as sleeved twin packs) or for processing. A sister line to SLIDER it is ideally suited to warmer conditions as it is slightly shorter and is slower growing.

**JAMMER** has very thick, cupped leaves which are extremely crisp and, like SLIDER, can be used as lettuce wraps in the food service industry. Once stripped back **JAMMER** is a tightly packed head with an extremely high number of useable leaves.

The internal leaves are a uniform, very light green colour and a very short core means less waste. Being a shorter type crispy cos, **JAMMER** is the preferred variety for single leaf use. When grown in warmer conditions **JAMMER** shows excellent tolerance to both tipburn and bolting even under extreme conditions.

## VARIETY FEATURES

- Dark green colour
- Small mini cos size
- Medium vigour

## AGRONOMIC CONSIDERATIONS

- Suitable for open field production
- Strong tolerance to tipburn
- Strong tolerance to bolting

## PACK SIZES

1M, 5M, 25M, 100M
