

LETTUCE LOLLO MONROE

MONROE is a medium to high vigour lollo bionda suitable for the whole head market in both hydroponics and field situations.

MONROE has a traditional lollo colour and produces uniform heads throughout the crop. It is an extremely versatile variety best suited to the cool and cold showing significantly more vigour than the market standard.

MONROE shows excellent leaf numbers to give bulk to sleeved head presentation and yield in situations where it is processed for leaf use. **MONROE** is strong against tipburn and bronzing in the heat.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Light green colour
- Large head size
- Medium to high vigour

AGRONOMIC CONSIDERATIONS

- Suitable for hydroponic production but can also be grown in the open field
- Strong tolerance to tipburn
- Medium vigour

PACK SIZES

1M, 5M, 25M

DISEASE RESISTANCES

High Resistance: Bl:16-23, 25-28, 30-32
