

BEETROOT PORTLAND

PORTLAND is a high quality, F1 hybrid variety producing a reliable crop of smooth-skinned, uniform, round roots with a fine tap roots.

A key feature of this variety is the deep purple/red colour throughout the internal flesh, with minimal zonation and high Brix.

PORTLAND can be harvested as loose roots but is also suitable for bunching due to the strong tops which are erect in habit and of medium height.

VARIETY FEATURES

- Highly uniform shaped roots
- Fine tap root
- Strong stem attachment.

HYBRID VARIETY

Untreated seed

Available as untreated seed.

PACK SIZES

100G, 500G, 5KG
