

GREEN CABBAGE

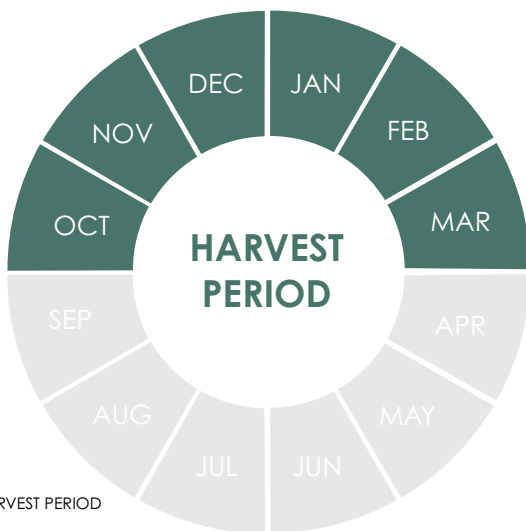

SUMMERCROSS

A mid-season variety which holds well for summer production, **SUMMERCROSS** produces a quality head even under the extremes of summer temperatures and drier conditions.

SUMMERCROSS is a long time standard producing compact plants with large green/blue outer leaves and a semi-flat head.

SUMMERCROSS fills well resulting in a dense head and is highly uniform, requiring fewer harvesting passes.

HARVEST PERIOD

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Green/blue head colour
- Globe head shape
- 1.5-2.0kg head weight
- Medium head size.

AGRONOMIC CONSIDERATIONS

Depending on planting time heads will mature in approximately 10-12 weeks.

HYBRID VARIETY

PACK SIZES

10M, 50M, 100M

DISEASE RESISTANCES

Good tolerance to diamond back moth.
