

GREEN CABBAGE EMPEROR

EMPEROR is a large, green, drumhead cabbage for cool season harvest.

Producing large heads between 3.5-5 kg, **EMPEROR** consistently produces highly uniform, mid-green cabbages that are suitable for both fresh and process markets.

Prominent white veins are a feature of this variety, as is the ability of **EMPEROR** to push through into spring without developing a large core.

EMPEROR has shown good field tolerance to black rot and has high resistance to Fusarium Yellows.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Mid-green head colour
- Flat-globe head shape
- 3.5kg head weight
- Slow to bolt.

AGRONOMIC CONSIDERATIONS

Depending on planting time, heads will mature in approximately 14-16 weeks.

HYBRID VARIETY

PACK SIZES

10M, 50M, 100M

DISEASE RESISTANCES

High Resistance: Foc(1)
