

MICROGREEN SHEIK

SHEIK is a purple pak choi for sprouting and microgreen production.

Dark purple, oval cotyledons with a contrasting green stem make an attractive option as a stand alone product or can add a nice colour variation to your salad mixes.

SHEIK delivers a mild, sweet flavour which is unique in the range of brassica lines.

VARIETY FEATURES

- Dark purple cotyledons
- Mid green stems
- Mild, sweet brassica flavour.

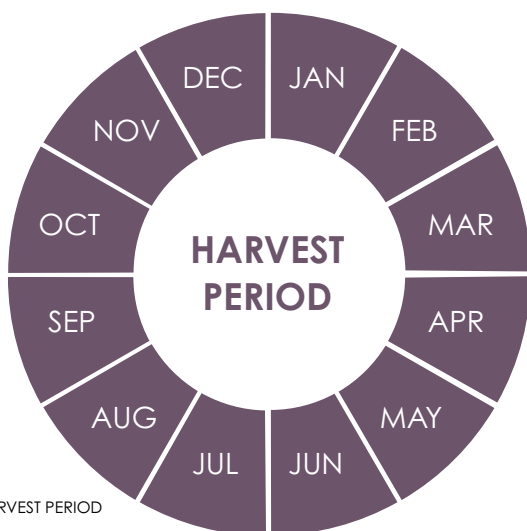

PACK SIZES

500G, 5KG, 10KG

Untreated seed

All our microgreen seeds are untreated.

HARVEST PERIOD

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.
