

PAK CHOI

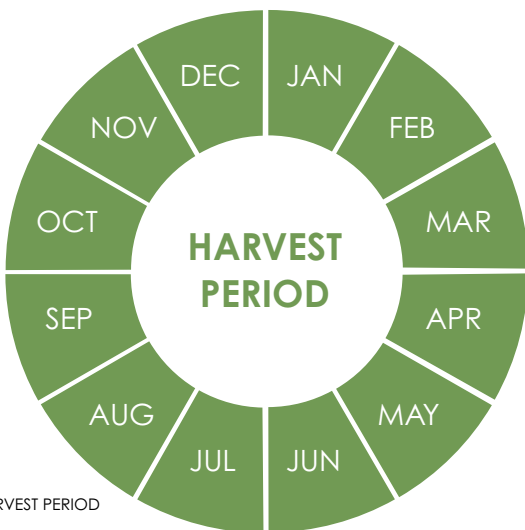

KAIZEN

KAIZEN is an improved white-stemmed joi choi (also known as bok choy) to complement our existing JOI CHOI.

A hybrid variety, **KAIZEN** is an improved version of the traditional Joi Choi and offers better head uniformity with regard to size, shape and maturity. It is easy to harvest, with one pass possible.

KAIZEN is a vigorous variety but will produce a slightly smaller plant than its traditional counterpart. Plants are compact with fleshy, white stems and dark-green leaves. **KAIZEN** is suitable for both bagged or bunched production.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Semi-upright plant habit
- Slightly smaller than Joi Choi
- Dark green leaf
- White stem
- High cut-out rates.

AGRONOMIC CONSIDERATIONS

- Suitable for year-round production
- Suitable for both field and hydroponic production.
