

MINI PAK CHOI KYOTO

KYOTO is a green-stemmed, mini pak choi for year-round production.

A hybrid variety, **KYOTO** produces very uniform heads with mid-dark green leaves.

KYOTO has good tolerance to bolting but being a mini pak choi, it will be faster to mature than Shanghai types.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.
